What is the Arizona Early Childhood Development and Health Board (First Things First)?

In November 2006, Arizona voters passed Proposition 203, also known as **First Things First**, a citizen's initiative that funds quality early childhood development and health at the state and local level. The Proposition created a new state level board known as the Arizona Early Childhood Development and Health (AzECDH) Board, also known as the Board of First Things First, and the Regional Partnership Councils.

First Things First Mission

The mission of First Things First is to increase the quality of, and access to, early childhood programs that will ensure a child entering school arrives healthy and ready to succeed. This mission will principally be achieved through regional grants tailored to the specific needs and characteristics of the communities that the regions serve, with a focus on demonstrating improved outcomes around First Things First's six goal areas prioritized by the challenges the regions face. This mission is also accomplished through statewide initiatives that have been prioritized by the Board of First Things First.

This statewide policy and regional perspective are critical to the success of the First Things First mission. Early childhood development and health system initiatives from First Things First will be coordinated through statewide initiatives and regional priorities.

First Things First Goal Areas

The First Things First initiative specifies that programs undertaken by the Arizona Early Childhood Development and Health Board and the Regional Partnership Councils are to accomplish one or more of the following Goal Areas:

- Improve the quality of early childhood development and health programs.
- Increase the access to quality early childhood development and health programs.
- Increase access to preventive health care and health screenings for children through age five.
- Offer parent and family support and education concerning early childhood development and literacy.
- Provide professional development and training for early childhood development and health providers.
- Increasing coordination of early childhood development and health programs and provide public information about the importance of early childhood development and health.

What is the Funding Source?

The First Things First initiative provides for the distribution of funding through both statewide and regional grants.

Of the monies expended in a fiscal year from the First Things First program account, no more than ten percent may be used to fund statewide grants or programs. Statewide programs are considered those implemented across regional boundaries and are designed to benefit Arizona's children as a whole.

This Request for Grant Application is specifically dedicated to funding regional programs. Regional funding is based on the approval of the Regional Partnership Council funding plans submitted to the Board of First Things First.

The Regional Partnership Council that is involved in the release of this Request for Grant Application is the Central Maricopa Regional Partnership Council.

Who is Eligible to Apply for this Funding Opportunity?

First Things First awards grants to:

- Non-profit 501 (c) (3) organizations providing services in Arizona (both secular and faith-based)
- Units of Arizona government (local, county and state entities as well as schools and school districts)
- Federally recognized Tribal governments or entities providing services within Arizona
- Arizona institutions of higher learning (colleges and universities)
- Private organizations providing services in Arizona

All potential Applicants must demonstrate organizational, fiscal and programmatic capacity to meet the requirements described in the scope of work listed in this RFGA.

What is the Total Funding Amount Available in this Request for Grant Application?

This is a twelve (12) month contract with an option for renewal for two (2) additional twelve (12) month periods. For the Central Maricopa Regional Partnership Council, the total funding available is approximately \$280,000 for the first funding period. First Things First reserves the right not to award the entire amount of available funds or to award an amount that is greater than the posted available funds. Renewal will be contingent upon satisfactory contract performance, evaluation and availability of funds. One or multiple awards may be made.

Should the Arizona state legislature modify public health insurance programs and/or funding for the public health insurance programs, First Things First may be required to modify, reduce or terminate the funding or scope for this RFGA. The cancellation and termination provisions as outlined in Section 8 Contract Termination apply to this provision.

Scope of Work: What Will This Grant Fund?

Strategy Overview

The Central Maricopa Regional Partnership Council (RPC) has identified the need for regional implementation of the following strategy:

- Public Health Insurance Outreach and Enrollment Assistance to ensure eligible community families enroll in and retain health coverage and other public benefits for their young children

Arizona has a large number of children who lack health insurance coverage. Some estimates are that as many as 16 percent of children age birth through five are without coverage for medical care. Research indicates that children without health insurance have a significantly worse health status than those with coverage and are less likely to receive routine preventative care. Arizona has two insurance programs for families who otherwise could not afford health care insurance, Arizona Health Care Cost Containment System (AHCCCS) and KidsCare. Despite the availability of insurance for low-income families, there continue to be those who are eligible who do not apply. There are a variety of reasons why this happens. In some cases, travel to a Department of Economic Security office to apply is out of reach due to lack of transportation.

Others express feelings of intimidation which result in reluctance to apply. Gathering the appropriate paperwork can seem overwhelming and may require multiple visits to complete. In some cases, families simply do not realize that they are eligible for services. In addition to the difficulty in getting enrolled in the first place, many families find it difficult to renew their coverage for many of the same reasons. In 2008, after a pilot program in selected Arizona counties, AHCCCS began accepting applications via the internet. The on-line application, called Health E Arizona was implemented to help address some of the challenges faced by families in applying for coverage. The Health E Arizona application is internet based and can be completed from any public or private computer. A family fills out the application and is screened for eligibility for AHCCCS, KidsCare, Nutrition Assistance (Food Stamps) and Temporary Assistance for Needy Families (TANF).

Target Population

The intended target population of this funding opportunity is the population of families with children ages birth through five who are likely to qualify for public health insurance, yet are currently underserved. Additionally, the targeted population should include underserved populations or underserved geographic locations, focusing specifically on families up to 200 percent of the Federal Poverty Level. This strategy targets all families with children ages birth

through five, as well as health professionals who serve families with children in this age range throughout the Central Maricopa region. Specifically, the strategy targets children ages birth through five in the Central Maricopa region who do not have public health insurance but who are eligible, or those who are currently enrolled in KidsCare and need to maintain public health insurance.

Applications submitted in response to the Request for Grant Application (RFGA) must serve the families within the geographic boundaries of the Central Maricopa Regional Partnership Council.

Geographic Boundaries

The Central Maricopa Regional Partnership Council serves the communities of Tempe, Chandler, Guadalupe and Ahwatukee, including the zip codes associated with those cities - 85044, 85045, 85048, 85281, 85224, 85225, 85226, 85227, 85244, 85246, 85248, 85249, 85280, 85281, 85282, 85283, 85284, 85285, 85286, 85287, and 85289. Note that the 85042 zip code is now included in the South Phoenix regional area due to a recent change in boundaries. Applicants responding to this RFGA must be able to provide services throughout the region and programs funded under this RFGA must serve children birth through five years and their families.

Assessment of Need

A needs and assets assessment of the region has shown that parents and families need education and support to understand their child's development and health, develop parenting skills, and have access to resources to be the best parents possible. The regional area has a lack of quality family support and education services to assist families in developing the necessary skills to support their children's optimal development and health as well as a lack of capacity among available programs to meet the needs of all families in the region.

Children without medical insurance have a difficult time obtaining primary and specialty care. They are more likely to be sick as newborns, less likely to be immunized as preschoolers, and less likely to receive medical treatment for injuries. Undiagnosed and untreated medical conditions can result in long term health and learning problems. Families without health insurance experience high out of pocket cost when their children lack coverage. Lack of health insurance can threaten families' economic security. Research has shown that health insurance coverage is linked to improved health. Insured children are more likely to access primary health care services to keep them well, more likely to receive timely immunizations and more likely to have a medical home.

Health insurance outreach and enrollment assistance is a proven practice for improving and increasing health coverage in public programs. In California, for example, 63 percent of applicants who received no community-based assistance were approved for enrollment, compared to a 79 percent approval rate for families who received assistance. According to a report from St. Luke's Health Initiatives; outreach efforts for publicly funded health insurance can be effective in covering more children with health coverage. Successful efforts include

public awareness campaigns, and outreach and enrollment by trusted, health or social service oriented community based organizations. Application assistance and follow up are an integral part of such efforts.

Health-E-Arizona application assistance gives families easy access and the option to apply for and renew health coverage, as well as other supports such as TANF, Cash Assistance, and Food Stamps, directly over the internet. In Central Maricopa, as with many communities, community based organizations and families may be unfamiliar with the new AHCCCS application and may need assistance in completing it. Health-E-Arizona application assistance has been shown to result in timelier enrollment and a reduction in application errors (resulting in applicants less likely to be denied coverage).

Implementation Requirements

First Things First is soliciting applications to provide assistance in identifying families who might be eligible for these services, providing information and education to families regarding the availability of the programs, and/or assisting families to complete the Health-E-Arizona application or completing the renewal process. Successful applicants will describe how they will identify or direct outreach and information to potentially eligible families. A detailed description of the method of outreach should include how families who might potentially be eligible will be identified and how applicants intend to seek out and engage those families who might not otherwise be aware of their eligibility. Successful applicants will also need to describe how they will encourage and assist families to renew their enrollment on time to prevent a gap or complete loss in health insurance coverage.

Health-E-Arizona application assistance can be performed in a variety of locations such as hospitals, clinics, social service agencies, faith communities, campuses and other community based locations such as a Family Resource Center. Successful applicants will provide a detailed description of the setting in which they will provide assistance and describe their rationale for selecting this setting for the region in which activities will be implemented.

In addition to helping families apply and/or renew coverage, applicants should describe methods and resources provided to forward the supporting documentation required to complete the application process on to AHCCCS and the Department of Economic Security. Successful applicants will provide families who do not qualify for or those waitlisted for services with information regarding available alternatives for free or low cost health care in the region. Some examples might include; free clinics, federally qualified health centers or county hospitals.

At a future date, successful applicants will be expected to provide data on outreach and enrollment activities that may be needed to meet federal requirements for Arizona to receive additional federal funding for these activities.

Due to the current economic situation in the state of Arizona, enrollment into KidsCare has been temporarily capped. Because of this, in addition to any other data reporting required by First Things First, applicants will be required to report the family income level of those who

receive application assistance. This cap in services highlights the importance of encouraging families to renew coverage on time. Failure to renew coverage by the deadline will result in a family being waitlisted for services.

Programs providing outreach and enrollment assistance to families should describe any equipment and supplies that will be necessary to complete the work. This might include computers, software, scanners and facsimile equipment. In addition, a description of any outreach/awareness materials should be included or a description provided.

This Request for Grant Application is seeking Applicants to address these specific Goals and Key Measures:

First Things First Goal Area to be addressed:

- Health

First Things First Goals to be addressed:

- First Things First will collaborate with existing Arizona early childhood health care systems to improve children's access to quality health care.
- First Things First will coordinate and integrate with existing education and information systems to expand families' access to high quality, diverse and relevant information and resources to support their child's optimal development.

First Things First Key Measures to be addressed:

- Total number and percent of children with health insurance
- Total number and percent of families who feel competent and confident about their ability to support their child's safety, health and well being
- Total number and percent of children receiving appropriate and timely well child visits
- Total number and percent of children receiving appropriate and timely oral health care

For more information on First Things First Goal Areas, Goals and Key Measures, please visit: http://www.azftf.gov/WhatWeDo/Impacting/Documents/azftf_Strategic_Road_Map2008.pdf

Coordination

Coordination and collaboration among early childhood service providers is critical to developing a seamless service delivery system for children and families. Through coordination and collaboration, organizations begin to look at how they can change the way they work together so that they deliver services to children and families in new, more effective and efficient ways. As a result of coordination and collaboration, services are often easier to access and are implemented in a manner that is more responsive to the needs of the families. Coordination and collaboration may also result in greater capacity to deliver services because organizations are working together to identify and address gaps in service.

Services and programs cannot be implemented in isolation. Successful applicants must demonstrate capacity to attend meetings and participate productively in coordination and collaboration activities occurring within the First Things First region being served. In order to

accomplish this, Applicants should plan the appropriate staffing and budget to support travel to and attendance at monthly meetings within the regional area.

In order to promote regional and statewide service coordination First Things First grantees may also be requested to participate in regional and statewide meetings. First Things First staff and Regional Councils will identify these additional coordination and collaboration opportunities. To ensure the capacity to participate in these activities, Applicants should plan the appropriate staffing and budget to support travel to and attendance at five additional meetings, four within the region or in a neighboring region and one in the Phoenix area. All travel related costs for these trainings and meetings should be included in the Applicant's budget.

Program Specific Data Collection

All successful Applications will be provided with data reporting requirements by First Things First and will meet the requirements of the evaluation including, but not limited to, timely and regular reporting and cooperation with all First Things First evaluation activities. Timely and regular reporting of all performance and evaluation data including the electronic submission (through First Things First secure web portal known as PGMS) of data identified in data reporting templates (which will follow the First Things First general orientation).

First Things First reporting requirements will be aligned with the Goals, Key Measures, and Performance Measures identified in each Scope of Work. The purpose of the First Things First data submission is to determine the extent to which the program has accomplished the stated goals and key measures, through reporting on program implementation as well as program outcomes (as appropriate and identified in the performance measures).

Successful Applicants agree to participate in the First Things First evaluation and any program specific evaluation or research efforts. Successful Applicants are required to collaborate with the First Things First longitudinal evaluation. The provider must participate in child assessment activities associated with the longitudinal evaluation including tracking and reporting to First Things First data pertaining to participant attendance, enrollment, and demographic information; all of which must be maintained in a secure and confidential manner. In addition, Applicants agree to follow First Things First and evaluation consultants of First Things First to observe program activities on site and obtain parent consent for data collection related to evaluation efforts.

Performance Measures are defined by First Things First to determine the key impacts of the strategies, programs and approaches being implemented. Applicants will collect and report data to First Things First on the progress of achieving the Performance Measures. All Successful Applicants will receive training on specific reporting requirements. Reporting requirements will be detailed and specific and aligned with the performance measures. Data must be submitted in its raw form (e.g., number of children served/proposed service number = 52 actual children served/50 proposed service number). Based on specific strategic objectives, data will be reported for subgroups, for example, one group of strategies may require reporting of the number of children from birth through five, whereas other strategies will need to report numbers broken down to number of infants, toddlers, and preschoolers. An additional

example, would be for type of Early Care provider or enrollment status. Examples of subgroups of Early Care providers are: Licensed with the Arizona Department of Health Services, accredited, regulated by Tribal authorities, etc; an example of family enrollment statuses is: Newly enrolled, continuing enrollment, disenrolled.

Performance Measures for the purposes of this RFGA are as follows:

- Number of applications for health insurance completed
- Income level of families receiving application assistance (in a format to be provided by First Things First)

How Will Applications be Evaluated?

The review committee will evaluate Applications and recommend those for an award based on the following criteria:

- Capacity of the Applicant for Addressing Needs (25%)
- Proposed Program or Strategy (25%)
- Implementation Activities (25%)
- Resource and Budget (10%)
- Evaluation Plan (15%)

Those Applicants not selected for funding will be notified in writing; however, pursuant to A.R.S. §41-2702 (E), all Applications shall not be open for public inspection until after grants are awarded. A.R.S. §41-2702 (G) also states the evaluator assessments shall be made available for public inspection no later than thirty (30) days after a formal award is made.

- 6.4 Licenses. Grantee shall maintain in current status all federal, state and local licenses and permits required for the operation of the business conducted by the Grantee.
- 6.5 Fingerprinting. Pursuant to A.R.S. §41-1758 Grantee will obtain fingerprint cards and/or background checks as applicable.

This Contract may be cancelled or terminated if the fingerprint check or the certified form of any person who is employed by a provider, whether paid or not, and who is required or allowed to provide services directly to children, discloses that a person has committed any act of sexual abuse of a child, including sexual exploitation or commercial sexual exploitation, or any act of child abuse or that the person has been convicted of or awaiting trial on any criminal offenses in this state or similar offenses in another state or jurisdiction.

7. State's Contractual Remedies

- 7.1 Right to Assurance. If First Things First in good faith has reason to believe that the Grantee does not intend to, or is unable to perform or continue performing under this Contract, the Grants and Contracts Procurement Specialist may demand in writing that the Grantee give a written assurance of intent to perform. Failure by the Grantee to provide written assurance within the number of Days specified in the demand may be, at First Things First's discretion, the basis for terminating the Contract under the First Things First Uniform Terms and Conditions or other rights and remedies available by law or provided by the contract.
- 7.2 Cancellation for Failure to Perform. Failure by the Grantee to adhere to any provision of this Agreement or its Attachments in the time and manner provided by this Contract or its Attachments shall constitute a material default and breach of this Contract and First Things First may cancel, at its option, this Agreement upon prior written notice.

First Things First may issue a written ten (10) day notice of default to the Grantee for acting or failing to act including but not limited to any of the following:

- The Grantee provides personnel that do not meet the requirements of this Agreement or are of an unacceptable quality.
- The Grantee fails to perform adequately the services required in this Agreement.
- The Grantee fails to furnish the required product or services within the time stipulated in this Agreement.
- The Grantee fails to make progress in the performance of the requirements of the Agreement and/or gives a positive indication that the Grantee will not or cannot perform to the requirements of this Agreement.

If the Grantee does not correct any problem(s) within ten (10) days after receiving the notice of default, First Things First may cancel the Contract. If First Things First cancels the Contract pursuant to this clause, First Things First reserves all rights or claims to damage for breach of the Contract and the Grantee agrees to a general release in favor of First Things First for any claim for reimbursement.

- 7.3 Non-Exclusive Remedies The rights and the remedies of First Things First under this Contract are not exclusive.

8. Contract Termination

- 8.1 Cancellation for Conflict of Interest. Pursuant to A.R.S. §38-511, First Things First may cancel this Contract within three (3) years after Contract execution without penalty or further obligation if any person significantly involved in initiating, negotiating, securing, drafting or creating the Contract on behalf of First Things First is or becomes at any time while the Contract or an extension of the Contract is in effect an employee of or a consultant to any other party to this Contract with respect to the subject matter of the Contract. The cancellation shall be effective when the Grantee receives written notice of the cancellation unless the notice specifies a later time. If the Grantee is a political subdivision of the State of Arizona, it may also cancel this Contract as provided in A.R.S. §38-511.
- 8.2 Suspension or Debarment. First Things First may, by written notice to the Grantee, immediately terminate this Contract if First Things First determines that the Grantee has been debarred, suspended or otherwise lawfully prohibited from participating in any public procurement activity, including but not limited to, being disapproved as a subcontractor of any public procurement unit or other governmental body. Submittal of an Application or execution of a contract shall attest that the Grantee is not currently suspended or debarred. If the Grantee becomes suspended or debarred, the Grantee shall immediately notify First Things First.
- 8.3 Termination for Convenience. First Things First reserves the right to terminate the Contract, in whole or in part at any time, when in the best interests of First Things First without penalty or recourse. Upon receipt of the written notice, the Grantee shall stop all work, as directed in the notice, notify all subcontractors of the effective date of the termination and minimize all further costs to First Things First. In the event of termination under this paragraph, all documents, data and reports prepared by the Grantee under the Contract shall become the property of and be delivered to First Things First upon demand. The Grantee shall be entitled to receive just, equitable compensation for work in progress, work completed, and materials accepted before the effective date of the termination. The cost principles and procedures provided in A.A.C. R2-7-701 shall apply.
- 8.4 Termination for Default. In addition to the rights reserved in the contract, First Things First may terminate the Contract in whole or in part due to the failure of the Grantee to comply with any term or condition of the Contract, to acquire and maintain all required insurance policies, bonds, licenses and permits, or to make satisfactory progress in performing the Contract. The Grants and Contracts Procurement Specialist shall provide written notice of the termination and the reasons for it to the Grantee. Upon termination under this paragraph, all materials, documents, data and reports prepared by the Grantee under the Contract shall become the property of and be delivered to First Things First on demand. Upon termination of this Contract, First Things First may procure, on terms and in the manner that it deems appropriate, materials or services to replace those under this Contract. The Grantee shall be liable to First Things First for any excess costs incurred by First Things First in procuring services in substitution for those due from the Grantee.

For more information about the state requirements, visit <http://www.gao.az.gov/travel/>.

Funding shall be limited to those items specifically listed in the proposed budget. Total funding may not be modified following award of the grant/contract. Requests for line item modifications, which do not change the total program funding, shall be requested in writing and shall only be made following receipt of written authorization from First Things First.

Please note the line items included in the budget template represent the types of costs possible for a line item budget these line items may or may not be applicable or appropriate for your Application. Also, be sure to include the scheduled salary increases on the Budget Form.*

Administrative/Indirect Costs: *Administrative costs are general or centralized expenses of overall administration of an organization that receives grant funds and does not include particular program costs. For organizations that have an established federally approved indirect cost rate for Federal awards, indirect costs mean those costs that are included in the organization's indirect cost rate. Such costs are generally identified with the organization's overall operation and are further described in 2 CFR 220, 2 CFR 225, and 2 CFR 230.*

Applicants must list either Option A or Option B and provide proper justification for expenses included:

- ☐ **Option A - Administrative Costs:** *with proper justification, sub grantees may include an allocation for administrative costs for up to 10% of the total direct funds requested of the grant request. Administrative costs may include allocable direct charges for: costs of financial, accounting, auditing, contracting or general legal services; costs of internal evaluation, including overall organization's management improvement costs; and costs of general liability insurance that protects the organization(s) responsible for operating a project, other than insurance costs solely attributable to the project. Administrative costs may also include that portion of salaries and benefits of the project's director and other administrative staff not attributable to the time spent in support of a specific project.*

Or

- ☐ **Option B - Federally Approved Indirect Costs:** *If your organization has a federally approved indirect cost rate agreement in place, grantees may include an allocation for indirect costs for up to 10% of the grant request. **Applicants must provide a copy of their federally approved indirect cost rate agreement.***

Indirect costs are costs of an organization that are not readily assignable to a particular project, but are necessary to the operation of the organization and the performance of the project. The cost of operating and maintaining facilities, depreciation, and administrative salaries are examples of the types of costs that are usually treated as indirect.

First Things First Health Insurance Outreach and Application Assistance Standards of Practice

Many children living in low income families qualify for publicly funded health insurance. Across the nation, as many as half the children who are uninsured qualify for publicly funded health insurance coverage (such as KidsCare or the Arizona Health Care Cost Containment System also known as AHCCCS). In Arizona, it is estimated that 16 percent of children lack health care coverage. For children birth through age five this represents 80,000 children. Health insurance outreach and application assistance is a proven practice for improving and increasing health coverage in public programs. Community application assistance occurs nationally and in Arizona in a wide variety of settings, such as health clinics, child care settings, social service agencies, recreation centers, and homeless shelters. Reports based on national as well as Arizona experience indicate that such assistance can make a difference in getting children covered. (U.S. Census Bureau, Annual Estimates of Population by Sex and Age for States and Fro Puerto Rico, Release data: May 1, 2008. <http://www.census.gov/popest/states/asrh/SC-Est207-02.html>).

In Arizona, AHCCCS implemented an electronic application for services to make applications more accessible to families. The universal application, known as Health-e-Arizona, allows families to apply for and renew health coverage, as well as other family support programs such as Temporary Assistance for Needy Families (TANF) cash assistance, and nutrition assistance, directly over the internet.

While this application promises to make enrollment in public coverage programs for young children easier, barriers still exist. Many families are not aware of available publicly funded health insurance programs for which they may be eligible. Community-based organizations and families may be unfamiliar with the new application, and may need assistance in completing it. Other families do not have access to a computer or an internet connection. In addition, families who are applying for coverage for the first time are required to submit original documentation to an Arizona Department of Economic Security (DES) office or a community-based agency that is “certified” by AHCCCS to accept such documentation. Families may find going to a DES office intimidating or difficult due to hours of operation (8-5), long wait times or travel distance. Currently, a limited number of community organizations use the Health-e-Arizona application to enroll children in health coverage, including some community health centers and hospitals.

There are several approaches to reducing the number of children who lack health insurance coverage such as increasing awareness of available publicly funded health insurance programs; increasing awareness of and access to the Health-e-Arizona online application; and reducing barriers in the public health insurance application process.

Programs implementing health insurance outreach and enrollment assistance will:

- Build upon, enhance and coordinate with existing health insurance outreach and enrollment assistance efforts occurring within a region.
- Demonstrate connections to community-based organizations in the region that serve families and/or community-based organizations where the uninsured are likely to congregate or seek other services.
- Provide ongoing staff development on diversity issues.
- Be accessible for families. Some examples include offering extended service hours including weekend/evening hours or operating in locations where public transportation is accessible or where families with young children already congregate.
